

AI-900 Week 1 Study Plan & Practice Questions

Goal: Complete AI Workloads, Responsible AI, and Azure AI Basics.

Monday

- 1 What is AI?
- 2 Types of AI (Vision, NLP, GenAI)
- 3 Write 3 real-world AI examples

Tuesday

- 1 Responsible AI Principles
- 2 Fairness, Privacy, Transparency, Accountability
- 3 Scenario practice

Wednesday

- 1 Azure AI basics
- 2 AI services overview
- 3 AI vs Machine Learning

Thursday

- 1 Machine Learning types
- 2 Regression, Classification, Clustering
- 3 Scenario identification

Friday

- 1 ML concepts
- 2 Features vs Labels
- 3 Training vs Validation data

Saturday

- 1 Revise all topics
- 2 Watch recap videos
- 3 Practice questions

Sunday

- 1 Light review

- 2 Fix weak areas
- 3 Plan next week

Practice Questions

Which AI workload detects objects in images?

- 1 A. NLP
- 2 B. Computer Vision
- 3 C. Conversational AI
- 4 D. Regression

Answer: B

Predicting house prices is what type of ML?

- 1 A. Classification
- 2 B. Clustering
- 3 C. Regression
- 4 D. NLP

Answer: C

Which principle ensures AI decisions are understandable?

- 1 A. Fairness
- 2 B. Transparency
- 3 C. Privacy
- 4 D. Inclusiveness

Answer: B

Analyzing positive/negative reviews uses?

- 1 A. Computer Vision
- 2 B. Regression
- 3 C. Sentiment Analysis
- 4 D. Clustering

Answer: C

Best Azure service for chatbot?

- 1 A. Vision
- 2 B. Language
- 3 C. Bot Service
- 4 D. ML

Answer: C
